

ONLINE ASSESSMENT SYSTEM

- RAVI KIRAN S (2015103019)

- KASALA ASHIF (2015103617)

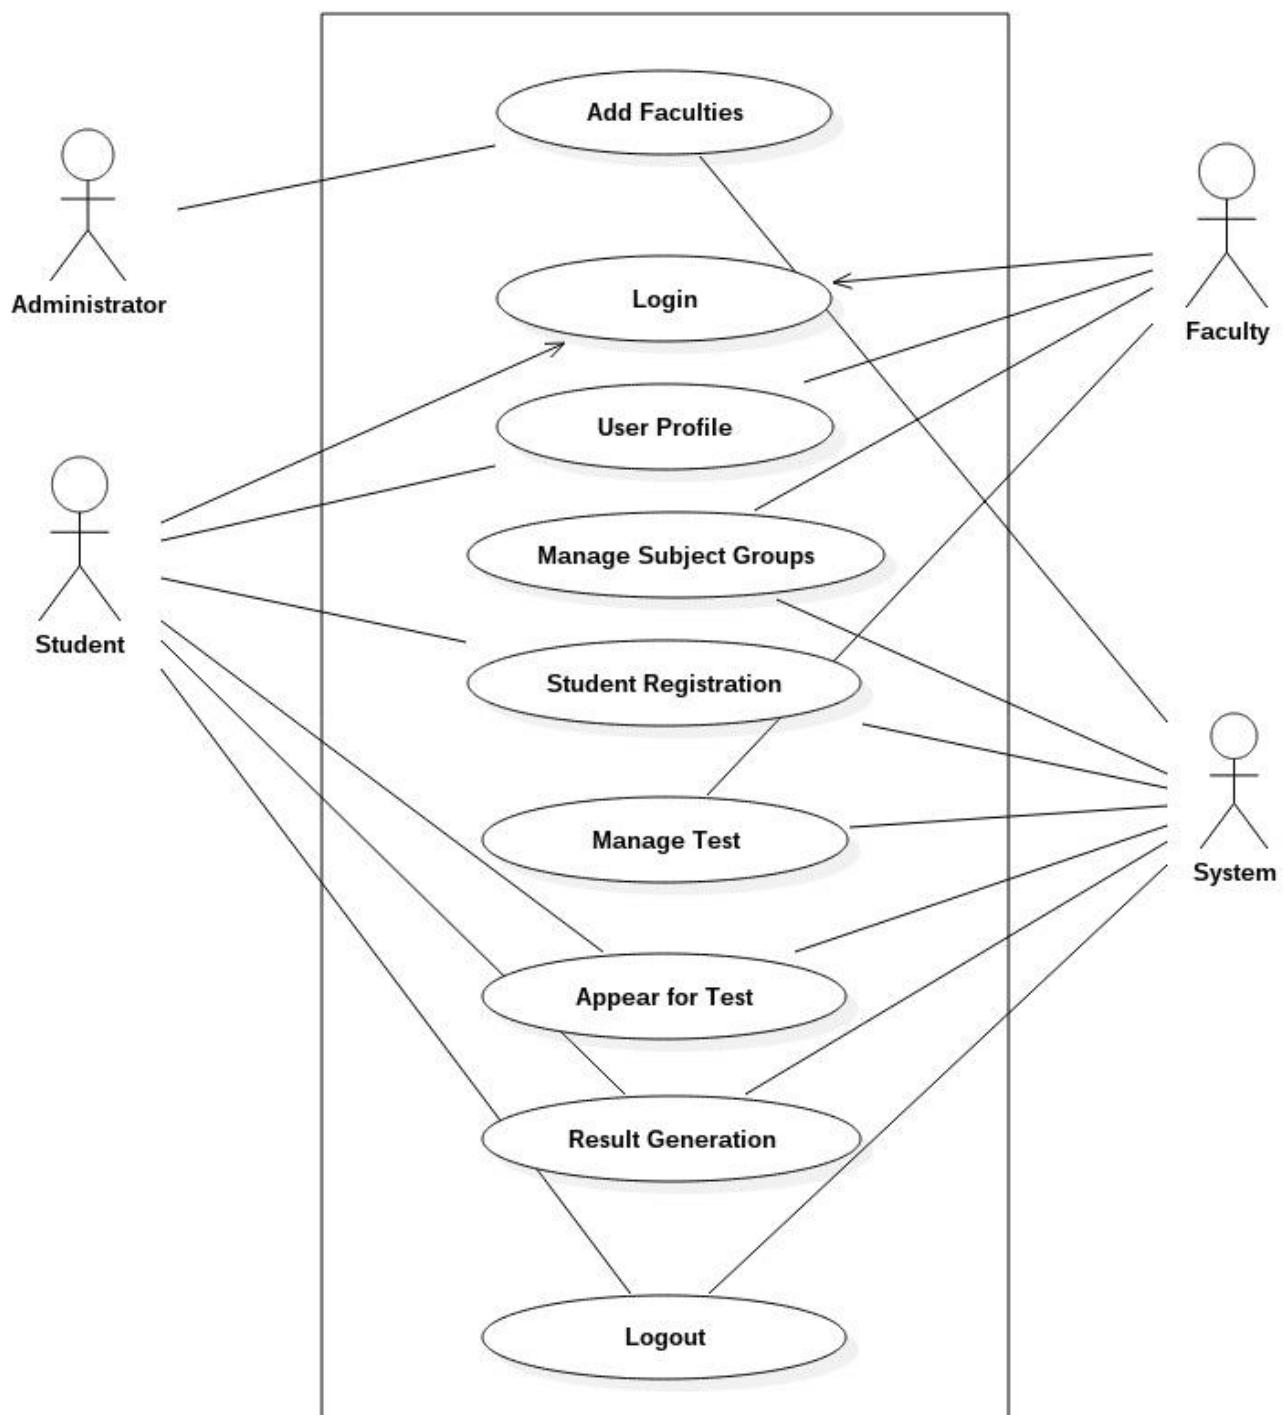

ABSTRACT

Online Assessment System is a software solution, which allows a particular college or university to arrange, conduct and manage examinations via an online platform. This can be done through Internet, Intranet and/or Local Area Network environments.

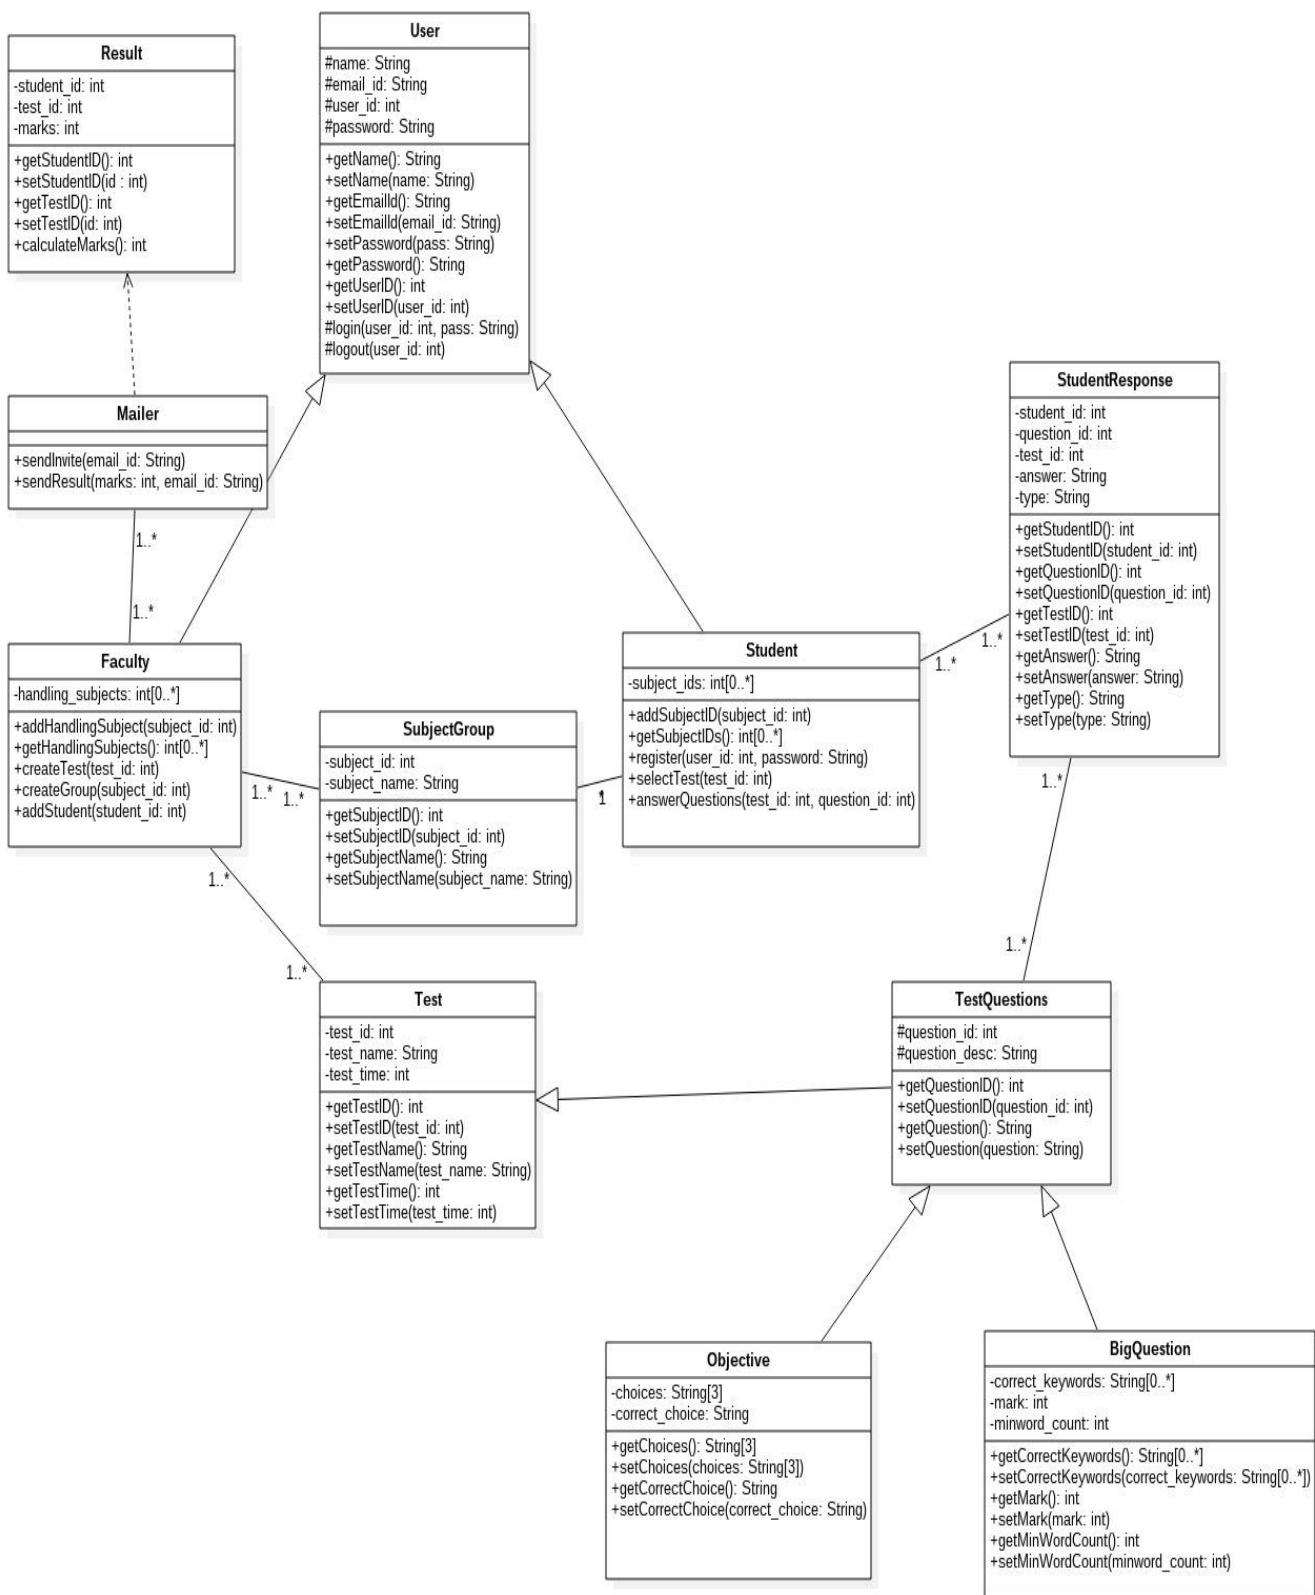

Some of the problems faced by manual examination systems are delay in result processing, lots of paper works, filtering of records are not easy. Maintenance of the system is also very difficult and takes lots of time and effort.

This system will greatly reduce the amount of paper works, and the result processing is also very fast that the students can get the results just after writing the assessments online.

RELATIONAL SCHEMA DIAGRAM

Front-End Codes:

Home Page 1:

The screenshot shows a web browser window for Google Chrome displaying a landing page for online assessments. The page has a blue gradient background featuring a world map and a laptop. At the top right are links for 'Home' and 'Login or Sign Up'. On the left, there's a section titled 'Highly Qualified Faculties' with a sub-section about faculties setting test papers. In the center, there's a 'GET STARTED' button. On the right, there's a section titled 'No Paper Work!' with a sub-section about reduced paper work.

Home Page 2:

The screenshot shows a web browser window for Google Chrome displaying a landing page with four main course categories. Each category is represented by an oval icon and a title. Below each title is a brief description and a 'LEARN MORE' button. The categories are: 'Embedded Systems' (with a blue circuit board icon), 'Operating Systems' (with a white circle containing various OS logos), 'Computer Networks' (with a globe and network nodes icon), and 'Digital Signal Processing' (with a black circle containing binary code and waveforms).
